RAJEEV INSTITUTE OF TECHNOLOGY

Plot # 1 (D), Growth Centre, Bangalore-Mangalore Bypass Road, HASSAN- 573 201, KARNATAKA
(Affiliated to VTU, Belagavi., Approved by AICTE, New Delhi., Recognized by Govt. of Karnataka)

Department of Electrical and Electronics Engineering

Activity Name	Skills required for IT Industry
Date of Activity	03/07/2023
Mode of Conduct	Physical - On-campus with internal stake holders
Time	0.5 Day
Participants	Students: 66 Faculty: 07
Objectives	• To help participants understand the different types of IT jobs available and the skills required for each type of job. • To provide participants with an overview of the latest trends and technologies in the IT industry and the skills they need to keep up with these trends. • To help participants develop their technical skills, such as programming languages, software development methodologies, systems and networks, and security. • To help participants develop their soft skills, such as communication, teamwork, and problem-solving. • To help participants develop their business skills, such as project management, change management, and stakeholder management.
Outcomes	The expected outcome of a workshop on skills required for IT is that participants will: • Have a good understanding of the essential skills that IT professionals need to have in 2023. • Be able to identify their own strengths and weaknesses in terms of these skills. • Have a plan for developing the skills they need to be successful in their IT careers.
Staff Co-ordinators	Shri Harsha J, Jayaram M V
Resource Person	Shashank H S, Developer, Cognizant technology solutions (2017-2021 batch alumni.)
Description	Software engineers are in high demand, and the job market is expected to continue to grow in the coming years. To be successful in this field, software engineers need to have a strong combination of technical skills and soft skills. This workshop will cover the essential skills that software engineers need to have in 2023. We will discuss both technical skills, such as programming languages and software development methodologies, as well as soft skills, such as communication and teamwork.
