

**Report of Technical Talk on
"Scope Of Embedded Systems And IOT In Framing Career In Core
Companies" Organized by the Department of Electronics and
Communication Engineering, Rajeev Institute of Technology, Hassan on 5th
April 2019**

The Department of Electronics and Communication has organized a technical talk on "*Scope of Embedded Systems and IOT in framing career in core companies*" for 6th semester students. Around 65 students were present during the talk.

The main objective of this technical talk is to know about the advancements in embedded systems at the company level and realizing the students about the company working environment and getting ready to the company interviews.

The Technical talk was presented by **Mr. Mohammad Atha Razvi**, CEO/Founder of Inventron Technologies and Business Solutions, for a duration of about 2:00 hours (11:15am – 1:15pm).

Objectives of the Talk

- To provide knowledge about various embedded programming languages
- Facing interviews during campus recruitment.
- Identifying correct job

Outcome of the Talk

- Students are able to identify various programming which can be used for embedded systems
- Increased the confidence of the students to face interviews and the stage
- Students are capable of identifying the companies and focusing on preparation as per company requirements.

After the completion of the talk, Mr. Mohammad Atha Razvi was honored by a memento as a token of gratitude and appreciation by the Principal Dr. A N Ramakrishna.
