kalyani@ictacademy.in

Holding 5.5 years of experience in Training, Development.

Experience

- Associate Professor in **Joginpally BR Engineering College** (2015-2016).
- CADD Trainer in **CADD Centre Training & Services** (2015-2017).
- Technical Trainer in **Steinbeis India** (2017-2018).
- Senior Technical Trainer in **ICT ACADEMY** (2018 to till date)

Education

- B. Tech in Mechanical Engineering from JBREC.
- M. Tech in CAD/CAM from Vidya Jyothi Institute of Technology.

Technical Skills

- Product Design
- Project designs and construction documents
- Engineering Drawing
- Generative Design
- Animation & Simulation Design
- Electrical Schematic Diagrams

Certifications

- Autodesk Certified User in AutoCAD, Revit Architecture and Fusion 360.
- Autodesk Certified Professional in AutoCAD and Revit Architecture.
- Autodesk Certified Instructor Badge
- Siemens Solid Edge Associate Level Certification.

REPORT ON

AUTODESK FUSION 360

CONDUCTED FOR 7TH SEM STUDENTS OF MECHANICAL ENGINEERING DURING AY 2018-19

Attendees: 7th-semester students

- 1. Title:** Autodesk Fusion 360 Software Training for 7th Sem Mechanical Engineering Students
- 2. Objective:** The objective of the Autodesk Fusion 360 software training was to equip 7th Sem Mechanical Engineering students with the knowledge and skills to effectively use the software for designing and analyzing complex mechanical systems and components.
- 3. About the Activity:** The Autodesk Fusion 360 software training was conducted by a team of experienced trainers from a ICT Academy. The training covered various topics, including basic and advanced features of Autodesk Fusion 360 software, designing of 3D models, assembly of components, and analysis of mechanical systems. The training was conducted over a period of 4 days, and students were given practical assignments to reinforce their learning.
- 4. Outcomes of Autodesk Fusion 360 Software Learning:** The Autodesk Fusion 360 software training had several positive outcomes for the 7th Sem Mechanical Engineering students. Some of the key outcomes are:
 - **Enhanced Designing Skills:** The students learned how to create complex 3D models using Autodesk Fusion 360 software. This helped them develop their design skills and improved their ability to visualize and conceptualize mechanical systems.
 - **Improved Analysis and Simulation Skills:** The students learned how to use Autodesk Fusion 360 software to perform various analyses and simulations, such as stress analysis, motion analysis, and thermal analysis. This helped them gain a better understanding of mechanical systems and their behavior under different conditions.

Plot # 1 (D), Growth Centre, Bangalore-Mangalore Bypass Road, HASSAN- 573 201, KARNATAKA
(Affiliated to VTU, Belagavi., Approved by AICTE, New Delhi., Recognized by Govt. of Karnataka)

- **Better Collaboration and Communication:** The students learned how to use Autodesk Fusion 360 software to collaborate and communicate with other stakeholders in the design and manufacturing process. This helped them work effectively as part of a team and improved their communication skills.
 - **Increased Employability:** Learning Autodesk Fusion 360 software is a valuable skill that is in high demand in the industry. The students who participated in the training program can leverage their knowledge and skills to enhance their employability and career prospects.
5. **How it Helps Students:** The Autodesk Fusion 360 software training provided several benefits to 7th Sem Mechanical Engineering students. It helped them develop their technical skills and knowledge, which are essential for a career in the mechanical engineering field. It also gave them hands-on experience with a widely used software tool, which can be a valuable asset in their future careers. Finally, the training program helped students build their confidence and provided them with a solid foundation for further learning and growth.
