

Department of Electrical and Electronics Engineering

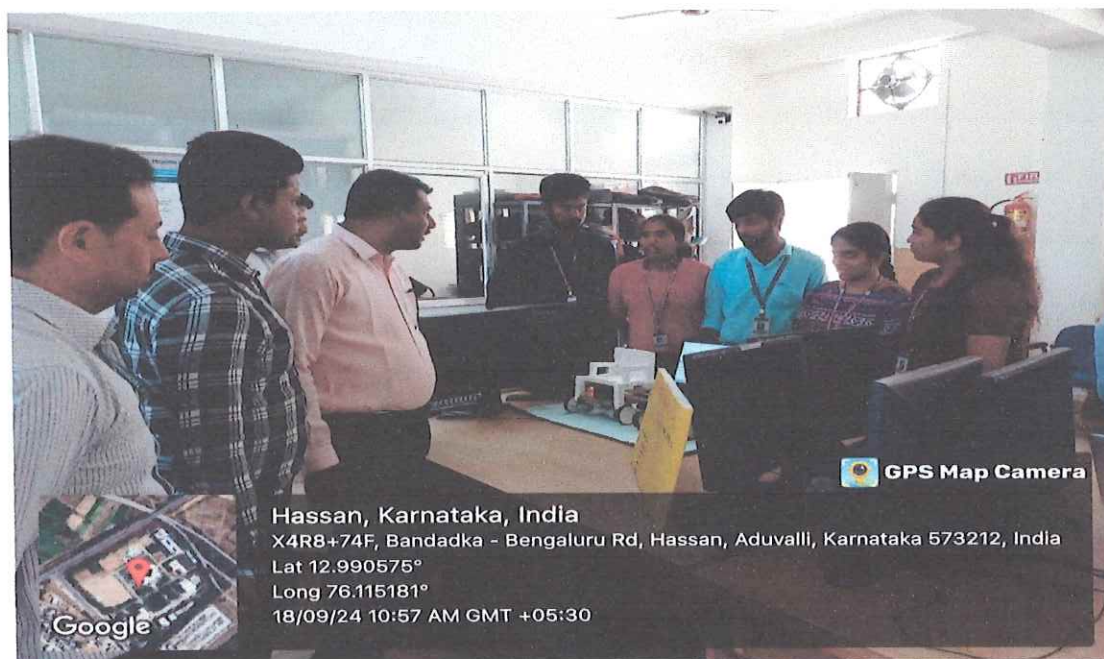

Semester: 1

IIC 7.0 Calendar Activity

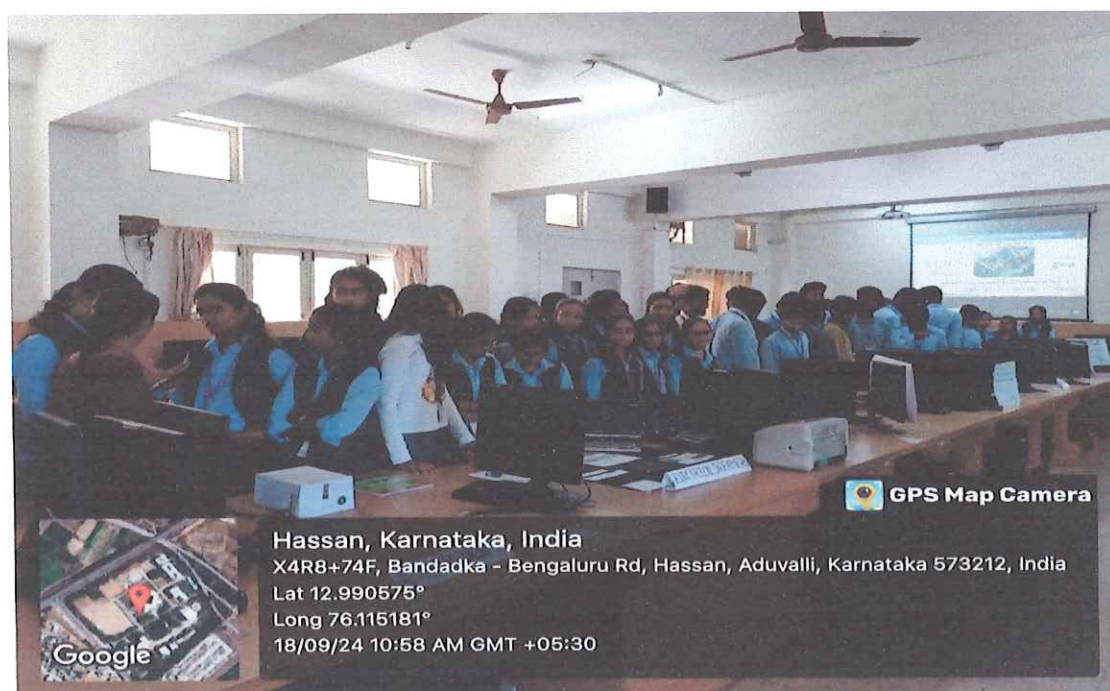

Quarter 1

Activity Name	Mini Project Expo conducted by EEE Department
Objectives	<p>To Provide a platform for students to present their creative ideas and solutions through small-scale projects.</p> <p>To Offer practical exposure to real-world applications and help participants understand the theoretical concepts in a more tangible way.</p> <p>Help students to develop technical and presentation skills by encouraging them to plan, execute, and communicate their projects effectively</p>
About the Activity	This activity helps foster an environment where participants showcase the results of their work or projects, often in the form of presentations, displays, or demonstrations.
Date of Activity	18/09/2024
Place of Activity	C.A.E.D. Lab, R.I.T., Hassan
Mode of Conduct	Offline
Time	One Day
Mandatory / Elective	Mandatory
Participants	<p>64 Students from the EEE Department</p> <p>09 Staffs from the EEE Department</p>
Activity Outcomes	This activity helps foster an environment of learning, innovation, and collaboration, allowing participants to gain practical experience, improve their projects, and receive valuable feedback from experts in their fields.
