Semester 1

Calender Activity

Quarter 01

Activity Name	Industrial Visit to KMF,Shettyhalli, Channarayapattana
Objectives	The objectives of the industrial visit to KMF (Karnataka Milk Federation) by students from Shettyhalli, Channarayapattana are to provide practical exposure to the dairy industry, enhancing their understanding of milk production, processing, and distribution processes. The visit aims to bridge the gap between theoretical knowledge and real-world applications, offering insights into modern dairy farming techniques, quality control measures, and the role of cooperatives in the dairy sector. It also seeks to promote awareness about the significance of dairy products in the economy, the importance of sustainability in agriculture, and the benefits of cooperative models in enhancing rural livelihoods. Additionally, the activity encourages students to develop analytical and observational skills, fostering a deeper interest in agricultural sciences and industrial practices.
About the Activity	The Industrial Visit to KMF (Karnataka Milk Federation) by students from Shettyhalli, Channarayapattana is an educational excursion designed to provide practical exposure to the dairy industry and its operations. The activity offers students a firsthand look at the processes involved in milk production, processing, and distribution, including quality control, packaging, and the role of cooperatives in the dairy sector. Students have the opportunity to interact with industry professionals, learn about modern dairy farming techniques, and understand the importance of dairy products in the economy and daily life. This visit not only enhances their theoretical knowledge with real-world applications but also fosters a deeper understanding of agricultural industries, sustainability practices, and the significance of cooperative models in rural development.
Date of Activity	03-10-2024
Place of Activity	KMF, Shettyhalli,Channarayapattana
Resource Person	Sahana R S, Nalini H C

Department of Information Science and Engineering

Mode of Conduct	Offline
Time	Half Day
Mandatory / Elective	Mandatory
Participants	62 Students
Outcome	The outcome of the Industrial Visit to KMF by students from Shettyhalli, Channarayapattana is a comprehensive understanding of the dairy industry's operations, from milk production to distribution. Students gain practical insights into modern dairy farming techniques, quality control measures, and the role of cooperatives in enhancing rural livelihoods and economic development. The visit also fosters critical thinking, problem-solving, and a deeper appreciation for agricultural industries and sustainability practices. Additionally, it inspires students to explore careers in agriculture, food technology, and related fields, while strengthening their connection to real-world applications of their academic knowledge.
