Semester II

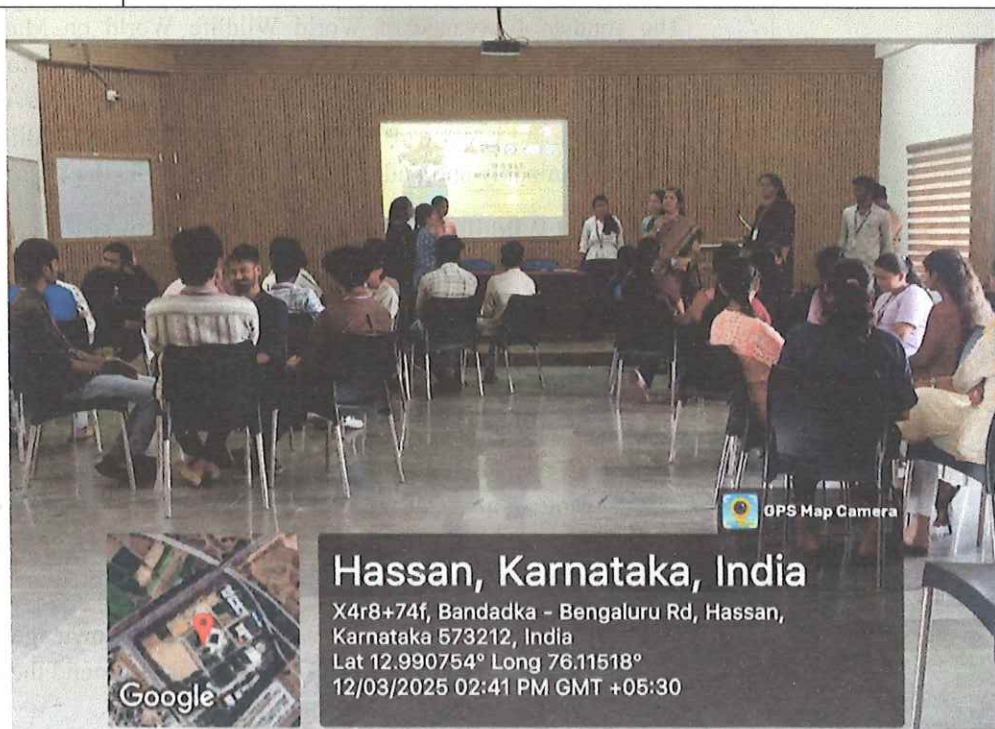

Self-Driven Activity

Quarter 3

| | |
|---------------------------|--|
| Activity Name | World Wildlife Day Celebration |
| Objective | To celebrate and raise awareness about the importance of conserving wildlife and protecting endangered species. |
| About the Activity | Quiz, poster presentation, and drawing competition were conducted to educate students and participants about biodiversity, endangered animals, the need for sustainable coexistence and how technology is being used to preserve biodiversity. |
| Date of Activity | 12 th March 2025 |
| Place of Activity | Seminar Hall, 4 th floor, Main Block |
| Mode of Conduct | Offline |
| Time | 2 Hours |
| Mandatory/Elective | Elective |
| Participants | <ul style="list-style-type: none"> Students: 82 Students Faculty: 12 faculties |
| Description | <p>The annual observance of World Wildlife World on March 3, 2025, to raise awareness about the importance of wildlife conservation and the protection of endangered species. This year's theme, "Wildlife Conservation Finance: Investing in People and Planet" to explore how we can work together to finance wildlife conservation more effectively and sustainably and build a resilient future for both people and the planet.</p> <p>The World Wildlife Day Celebration was inaugurated on 15th March 2025 at the Seminar Hall of the Department of Electronics and Communication Engineering (E&CE). The event began with a warm welcome extended to all dignitaries, faculty members, and students. The atmosphere was filled with enthusiasm and anticipation as the audience gathered to celebrate nature and reflect on the importance of wildlife conservation.</p> <p>The inauguration function was formally opened by Dr. Prakash Kuravatti, Head of the Department of ECE, who delivered a speech on the importance of safeguarding our scientific and ecological heritage. He emphasized how scientific advancement and conservation must go hand-in-hand and encouraged students to explore ways in which technology can be harnessed to protect wildlife and preserve biodiversity.</p> <p>The quiz aimed to test and enhance students' knowledge on wildlife species, ecosystems, endangered animals, and conservation efforts around the globe. The event was conducted in a friendly yet competitive atmosphere</p> <p>The Poster Presentation was organized to explore the innovative role of technology in wildlife conservation. The Poster Presentation was a great success in merging art, science, and awareness. It not only showcased the students' research and artistic skills but also sparked meaningful conversations about how emerging technologies can serve as powerful allies in preserving wildlife for future generations.</p> |

| | |
|-------------------------|---|
| | <p>The Drawing Competition, aimed especially at younger students, provided a platform for budding artists to express their love for nature. The young participants depicted various animals, natural habitats, and the human role in conservation with vivid imagination and colors.</p> <p>The winners were awarded certificates, trophies, while all participants received certificates of participation to recognize their efforts. The prizes were distributed by Dr. Mohana H S, who congratulated all the participants for their hard work and enthusiasm.</p> <p>The function concluded with a formal vote of thanks, expressing gratitude to the dignitaries, organizers, and participants for their support and enthusiasm in making the event a success.</p> <p>The World Wildlife Day celebrations successfully inspired students to learn more about wildlife and become proactive in the cause of environmental conservation. Through fun, interactive, and thought-provoking activities, the events helped instill a deeper sense of responsibility and connection toward our planet's rich biodiversity.</p> |
| Activity Outcome | <p>The World Wildlife Day celebration proved to be an enriching and inspiring experience for all participants. Students learned about endangered species, global conservation efforts, and the importance of protecting ecosystems through fun and educational formats. Participants expressed their understanding and concern for wildlife through impactful visuals, artistic drawings, and informative posters.</p> |
